SEO and Google Ads playbook for Knowledge Park 360

Knowledge Park 360 can build a profitable B.Tech admission lead-gen engine around a **specialist "SRM + Top-5 Bangalore" positioning**, a compliance-safe keyword stack, and a WhatsApp-first conversion funnel. **Peak opportunity runs April through September 2026**, with July–August being the single biggest "management quota rush" window in the Indian calendar. An annual paid-media investment of **₹25–40 lakhs** can realistically generate 3,000–6,000 qualified inquiries at a blended cost-per-lead of **₹350–₹700**, translating to 240–720 closed admissions at typical 8–12% close rates. The strategy below combines high-intent keywords, policy-safe ad terminology, proven landing-page anatomy from competitors like IndEdu, ShikshaTech and Btech-Guru, and a campaign architecture designed for Google's 2026 smart-bidding environment.

The central tension this plan resolves: **"Management quota" drives the highest-intent searches but sits in a Google Ads gray zone** where inconsistent enforcement can suspend accounts. The solution is a **two-layer system** — aggressive keyword targeting using "management quota" and related terms, but carefully sanitized ad copy that leans on "direct admission," "admission guidance," and "free counselling" to stay compliant while a content-rich landing page does the heavy explaining.

The commercial-intent keyword universe

B.Tech admission search demand in India splits cleanly into **five commercial clusters** — SRM brand, Bangalore-college brand, generic management-quota/direct-admission, course-specific (CSE/AI-ML/DS), and JEE/KCET/COMEDK alternative. Parents dominate the fee-related and college-specific queries; students dominate the rank-specific and course-specific queries. Both personas land on the same pages but convert differently, which drives the ad group structure below.

Search volume hierarchy (April 2026, directional monthly volume, India): SRMJEEE 2026 (40K–60K) is by far the highest-volume single query, but it's informational. The highest-**commercial-intent** queries are "SRM admission" (~22K), "SRM fees" (~18K), "B.Tech admission Bangalore" (~4.4K), "management quota B.Tech" (~5K), "direct admission B.Tech" (~7K), and "RVCE management quota" (~1.9K). CPCs in this category are **among India's highest for education** — ₹15–50 for informational brand terms, ₹60–120 for campus-specific admission queries, and **₹120–320 for transactional "management quota" and "direct admission" phrases**, because every consultancy in the country is bidding on a small keyword pool with high lead LTV (₹15–70 lakh fee tickets justify aggressive bids).

Master keyword list — 160+ terms grouped by ad group

Cluster 1 — SRM brand & admission (18 keywords): SRM admission, SRM University admission, SRM University admission 2026, SRMIST admission, SRM Institute of Science and Technology admission, SRM B.Tech admission, SRM B.Tech admission 2026, SRM engineering

admission, SRM BTech last date 2026, SRM application 2026, SRM application form 2026, SRM online application, SRM admission eligibility, SRM admission process, SRM counselling 2026, SRM counselling date 2026, SRM University Chennai admission, SRM Chennai B.Tech admission.

Cluster 2 — SRM campus-specific (24 keywords): SRM KTR admission, SRM Kattankulathur admission, SRM KTR B.Tech admission, SRM Kattankulathur fees, SRM KTR CSE admission, SRM Ramapuram admission, SRM Ramapuram B.Tech admission, SRM Ramapuram fees, SRM Vadapalani admission, SRM Vadapalani B.Tech fees, SRM AP admission, SRM AP Amaravati admission, SRM Amaravati B.Tech admission, SRM University Andhra Pradesh admission, SRM AP direct admission, SRM NCR admission, SRM Ghaziabad admission, SRM Delhi NCR B.Tech admission, SRM Modinagar admission, SRM Sonepat admission, SRM Haryana admission, SRM Sikkim admission, SRM Trichy admission, SRM Tiruchirappalli admission.

Cluster 3 — SRM fees / cutoff / placement (15 keywords): SRM fees, SRM B.Tech fees, SRM fees structure, SRM fees 4 years, SRM CSE fees, SRM AIML fees, SRM hostel fees, SRM BTech total fees, SRM Chennai fees, SRM KTR fees 2026, SRM cutoff, SRM CSE cutoff, SRM placement, SRM placement 2025, SRM CSE placement.

Cluster 4 — SRM entrance-alternative (14 keywords): SRMJEEE, SRMJEEE 2026, SRMJEEE registration, SRMJEEE application form, Phodu SRM without JEE, SRM without SRMJEEE, SRM admission without entrance exam, SRM without exam, SRM admission without SRMJEEE, SRM JEE Main admission, SRM direct admission, SRM direct admission 2026, SRM direct admission B.Tech, SRM direct admission CSE.

Cluster 5 — SRM management/NRI quota [HIGH VALUE] (18 keywords): SRM management quota, SRM management quota 2026, SRM management quota admission, SRM management quota fees, SRM management quota fees 2026, SRM management quota CSE, SRM management quota CSE fees, SRM management quota AIML, SRM management quota ECE, SRM management quota Ramapuram, SRM management quota KTR, SRM donation fees, SRM donation for CSE, SRM capitation fee, SRM NRI quota, SRM NRI admission, SRM NRI fees, SRM NRI quota B.Tech.

Cluster 6 — SRM course-specific (13 keywords): SRM CSE admission, SRM CSE direct admission, SRM AI ML admission, SRM AI ML direct admission, SRM Data Science admission, SRM CSE Cyber Security admission, SRM ECE admission, SRM Mechanical admission, SRM Biotechnology admission, SRM Biotech direct admission, SRM Civil Engineering admission, SRM IT admission, SRM Aerospace admission.

Cluster 7 — Bangalore Tier-1 colleges (40 keywords): RVCE management quota, RV College management quota, RVCE direct admission, RVCE direct admission 2026, RVCE B.Tech admission, RVCE CSE management quota, RVCE management quota fees, Management-quota RV College fees 2026, RVCE cutoff 2026, RVCE NRI quota, BMSCE management quota, BMS College direct admission, BMSCE direct admission 2026, BMSCE CSE management quota fees, BMSCE B.Tech fees, BMSCE cutoff, BMSCE admission without KCET, BMSCE AIML admission, PES University management quota, PES University direct admission, PES University B.Tech fees 2026, PESU CSE management quota, PES management quota fees, PES University admission

2026, PESU cutoff, PES University NRI quota, MSRIT management quota, MSRIT direct admission, MS Ramaiah direct admission 2026, MSRIT CSE management quota fees, MSRIT B.Tech fees, MSRIT cutoff 2026, DSCE management quota, Dayananda Sagar direct admission, DSCE CSE fees, DSCE management quota fees 2026, Dayananda Sagar B.Tech admission, DSCE cutoff, Christ University B.Tech admission, Jain University direct admission.

Cluster 8 — Bangalore Tier-2/3 colleges (24 keywords): Reva University management quota, Reva University direct admission, Reva B.Tech fees 2026, Jain University management quota, Jain University B.Tech fees, Admissiongroup Jain University CSE admission, Christ University management quota, Christ University direct admission, NMIT management quota, Nitte Meenakshi direct admission, NMIT B.Tech fees, Sir MVIT management quota, MVIT direct admission, Acharya Institute management quota, Acharya direct admission, BMSIT management quota, BMSIT direct admission, BMSIT CSE admission, CMRIT management quota, CMR Institute direct admission, Presidency University B.Tech admission, Presidency University management quota, Alliance University direct admission, Alliance University management quota, NHCE direct admission, New Horizon management quota.

Cluster 9 — Bangalore location & Karnataka (14 keywords): B.Tech admission Bangalore, B.Tech admission Bangalore 2026, engineering admission Bangalore, management quota engineering Bangalore, direct admission Bangalore engineering, admission consultant Bangalore, B.Tech consultant Bangalore, B.Tech without KCET, B.Tech without COMEDK, Karnataka engineering admission, Karnataka B.Tech management quota, top engineering colleges Bangalore, engineering seat Bangalore, NRI quota engineering Bangalore.

Cluster 10 — Generic management quota / direct admission (16 keywords): management quota B.Tech, management quota engineering, management quota engineering admission, management quota admission 2026, B.Tech management quota fees, management quota CSE, management seat engineering, direct admission B.Tech, direct admission engineering, direct admission engineering college, direct admission B.Tech 2026, direct admission CSE, direct admission without JEE, direct admission B.Tech without entrance exam, NRI quota engineering, NRI quota B.Tech.

Cluster 11 — Course-specific direct admission (14 keywords): CSE direct admission, CSE direct admission Bangalore, CSE management quota Bangalore, AI ML direct admission Bangalore, AIML management quota Bangalore, Data Science B.Tech direct admission, Data Science management quota, Cyber Security direct admission, Cyber Security B.Tech admission Bangalore, ECE direct admission Bangalore, ECE management quota Bangalore, Mechanical direct admission Bangalore, IT direct admission Bangalore, Biotech B.Tech direct admission.

Cluster 12 — JEE/KCET/COMEDK alternative (14 keywords): B.Tech without JEE, B.Tech without JEE Main, B.Tech admission without JEE, Wctmgurgaon engineering admission without KCET, engineering without COMEDK, low COMEDK rank colleges, low KCET rank colleges, low JEE score engineering college, failed JEE what to do, didn't qualify JEE, alternative to JEE Mains, B.Tech admission with low marks, B.Tech admission 60 percent, engineering admission on PCM marks.

Cluster 13 — Long-tail high-intent questions (16 keywords): how to get admission in SRM without JEE, how to get direct admission in SRM, how to get CSE in SRM, can I get SRM with low rank, last date for SRM management quota, SRM management quota fees for CSE 2026, SRM AP management quota fees, SRM Ramapuram management quota fees, RVCE vs BMSCE vs MSRIT, best engineering college in Bangalore for CSE, PES vs RVCE CSE, how to get RVCE without KCET, is management quota legal in Karnataka, B.Tech admission consultant Bangalore reviews, management quota fees CSE 2026, SRM admission helpline.

Cluster 14 — Consultant / education consultant generic (10 keywords): admission consultant India, B.Tech admission consultant, engineering admission consultant, education consultant for engineering, engineering admission help, management quota consultant, direct admission consultant, B.Tech counselling services, admission guidance for engineering, best admission consultant for B.Tech.

The 30 priority keywords to launch with

These deliver the highest ROI balance of volume, intent and affordable CPC. **Every one of the top 10 here should be in exact or phrase match on day one**, with conversion tracking active before spend begins.

#	Keyword	Est. Monthly Vol (India)	CPC (INR)	Competition	Intent
1	SRM management quota fees	2,500–4,000	140–220	High	Transactional
2	SRM direct admission	2,500–4,200	110–180	High	Transactional
3	SRM management quota	3,500–5,500	120–200	High	Transactional
4	direct admission B.Tech	5,500–8,500	120–200	High	Transactional
5	management quota B.Tech	4,000–6,500	130–210	High	Transactional
6	direct admission engineering college	2,800–4,200	130–210	High	Transactional
7	RVCE management quota	1,800–2,000	220–320	High	Transactional
8	RVCE direct admission	1,500–1,700	220–320	High	Transactional
9	management quota engineering Bangalore	2,500–2,900	180–260	High	Transactional
10	direct admission B.Tech Bangalore	2,000–2,400	200–300	High	Transactional
11	PES University management quota	1,400–1,600	200–300	High	Transactional
12	BMSCE management quota	1,100–1,300	180–280	High	Transactional
13	MSRIT management quota	900–1,000	180–260	High	Transactional
14	SRM CSE admission	2,800–4,500	75–130	High	Commercial
15	SRM AIML admission	1,600–2,800	80–140	High	Commercial
16	B.Tech admission Bangalore	4,000–4,400	120–180	High	Commercial
17	B.Tech admission without JEE	3,500–5,500	100–170	High	Commercial
18	SRM NRI quota	600–1,100	160–240	High	Transactional
19	direct admission CSE	1,800–3,000	150–230	High	Transactional
20	CSE direct admission Bangalore	800–880	220–320	High	Transactional
21	SRM AP admission	2,200–3,600	50–90	High	Commercial
22	SRM Chennai B.Tech admission	3,500–5,500	60–110	High	Commercial

#	Keyword	Est. Monthly Vol (India)	CPC (INR)	Competition	Intent
23	SRM KTR admission	1,800–3,000	55–95	High	Commercial
24	SRM Ramapuram admission	1,600–2,800	45–85	High	Commercial
25	DSCE management quota	700–720	160–240	Med	Transactional
26	admission consultant Bangalore	1,200–1,300	160–240	High	Commercial
27	B.Tech admission consultant	900–1,000	180–260	High	Commercial
28	B.Tech without KCET	700–720	140–200	Med	Commercial
29	how to get admission in SRM without JEE	500–1,000	80–140	Med	Transactional
30	NRI quota engineering	1,400–2,400	140–220	High	Transactional

Volumes are directional estimates triangulated from India education-vertical benchmarks; validate within Google Keyword Planner once an active account exists. CPCs reflect top-of-page bids; actual paid CPC typically runs 30–50% lower after Quality Score optimization.

Google Ads policy reality for "management quota" advertisers

There is no explicit Google Ads policy banning the phrase "management quota" — but three overlapping policies create real disapproval and suspension risk: **Misrepresentation** (prohibits "guaranteed admission" and similar unreliable-claims language), **Unacceptable Business Practices** (the most dangerous — triggers immediate account suspension without warning when ads imply unauthorized affiliation with a university), and **Trademark policy** (SRM, RVCE, PES and others can file complaints if their trademarks appear in ad headlines). Community reports from 2025–26 show **inconsistent enforcement**: some accounts run "management quota" ads for months without issue, others get flagged within days.

"Donation seats" and "capitation fee" are **significantly riskier** because they imply transactions that are explicitly illegal under state laws like the Karnataka Educational Institutions (Prohibition of Capitation Fee) Act. These terms must never appear in ad copy, keywords as exact match, or headlines — they belong only in long-form FAQ/blog content on the landing page with contextual disclaimers. "Guaranteed admission," "100% admission," "sure-shot seat" and "confirmed seat" all trigger the Misrepresentation policy and must be avoided entirely.

Terminology risk ladder

Term	Risk	Where to use it
Direct admission	Low	Primary — headlines, descriptions, sitelinks
Admission assistance / guidance / counselling	Low	Descriptions, callouts — very safe
B.Tech admission 2026	Low	Headlines, pairs with college names
NRI quota	Low-Med	Legally recognized by UGC/AICTE; dedicated LP OK
Lateral / spot / priority admission	Low-Med	Use with context; avoid implying unfair advantage
Management quota	Medium	OK in keywords; in ad copy use only paired with "counselling/guidance/information" modifier, ideally in Headline 3 or description, not Headline 1
Guaranteed / 100% admission / sure-shot	High	Avoid entirely
Donation seat / capitation fee	Very high	Never in ads or keywords

The **landing page has more flexibility than ads** — Google crawls for legality, not keyword presence alone. The LP can explain "management quota" thoroughly in body content and FAQs, cite the Karnataka Professional Educational Institutions Act 2006 Management-quota for legal legitimacy, Management-quota management-quota and publish branch-wise fee tables. Auditsocials But it **must carry** a clear disclaimer such as: *"Knowledge Park 360 is an independent admission consulting service. We are not affiliated with SRM Institute of Science and Technology or any Bangalore engineering college. Our services are limited to admission guidance, counselling, documentation assistance, and shortlisting."* This single paragraph protects against the Unacceptable Business Practices suspension risk.

Risk mitigation tactic to implement immediately: Maintain a **secondary "clean" ad account** with sanitized copy that uses only "direct admission" and "admission assistance" — so if the primary account gets suspended during peak season, business continuity isn't broken. This is what experienced education advertisers in India do.

Negative keyword list — 60 terms to block day one

Add these as **account-level shared negatives** before spending a rupee. They protect against the

two biggest leak vectors: informational traffic (exam prep, results, syllabus) and mismatched-intent traffic (free seats, scholarships, wrong programs).

Free / scholarship / government (18): free, free admission, scholarship, SRM scholarship, fee waiver, 100% scholarship, government seat, govt quota, merit seat, reservation, SC quota, ST quota, OBC quota, EWS quota, sports quota, government college, NIT, IIT.

Exam prep / academic (15): syllabus, previous year paper, question paper, sample paper, mock test, result, answer key, hall ticket, admit card, exam date, notification, preparation, coaching, crash course, kcet result.

Wrong programs (13): M.Tech, PhD, MBA, MBBS, BDS, nursing, pharmacy, law, B.Arch, B.Des, BBA, BCA, lateral entry (add back only if offered).

Reputation / jobs / fraud (14): fake, scam, fraud, review, complaint, blacklist, cyberwatchdog, recruitment, faculty recruitment, vacancy, job, salary, student login, pdf download.

Add competitor-brand terms (VIT, Manipal, Amity, LPU, Bharath, Lovely Professional, Chandigarh University, Galgotias) as campaign-level negatives unless running explicit comparison ads, to avoid bidding on non-target brand queries.

Campaign architecture and bidding strategy

Use **STAG (Single-Theme Ad Groups) not SKAG** — SKAGs are obsolete in 2026 because Google's close-variant matching and AI bidding need broader signals per ad group. Run 5–15 tightly themed keywords per ad group. Build **eight campaigns** mapped to the clusters above, with budget weights calibrated to intent quality.

Campaign	Ad groups	Match types	Bid strategy	Peak-season share
SRCH_SRM_DirectAdmission_IN	SRM brand; SRM campuses (KTR/AP/Ramapuram/NCR); SRM CSE/AIML; SRM fees	Phrase 70% + Exact 30%	Max Conversions → tCPA ₹400 after 30 conv	25%
SRCH_Bangalore_TopColleges_IN	RVCE; BMSCE/PESU/MSRIT; DSCE/NHCE/Reva; Jain/Christ	Phrase + Exact	Max Conversions	25%
SRCH_Generic_MgmtQuota_IN	Management Quota B.Tech; Direct Admission Engineering; Admission Consultant; NRI Quota	Phrase 80% + Exact 20%	Max Conversions	20%
SRCH_Course_Specific_IN	CSE; AI-ML; Data Science; Cyber Security; ECE/Mech	Phrase + Exact	Max Conversions	10%
SRCH_JEEAlt_LowRank_IN	Without JEE/KCET/COMEDK; Low rank options; Failed JEE	Phrase	Maximize Clicks (awareness)	8%
SRCH_Brand_Defense_IN	knowledgepark360 and variants	Exact	Manual CPC (low)	2%
PMAX_Remarketing_IN	Persona-based asset groups	N/A	Max Conversions with tROAS cap	5%
DISP_Remarketing_IN	Site visitors, form abandoners	N/A	Max Conversions	5%

Bidding roadmap by account maturity: launch with **Maximize Clicks at ₹25 manual cap** for the first 20 conversions to gather data cheaply; switch to **Maximize Conversions (no cap)** between 20–50 conversions; move to **Target CPA ₹350–₹500** once past 50 monthly conversions; layer **Target ROAS** only after six months of data when lead-value differentials between SRM vs BMSCE vs generic leads become statistically reliable. Never launch Day 1 on Maximize Conversions with high budgets — Google's learning phase will burn budget without conversions.

Conversion tracking must be live before spend starts, with assigned values to feed smart bidding: form submit ₹500, phone call from ads ₹500, WhatsApp click-to-chat ₹300, callback request ₹400, and micro-conversions (90-second session + 3+ pageviews) valued at ₹50. Crucially, implement **Enhanced Conversions for Leads** — upload closed admissions from the CRM back into Google Ads weekly, which dramatically sharpens Target CPA accuracy by teaching the algorithm which lead types actually convert to revenue.

All eight ad extensions should be active: six to eight sitelinks (SRM B.Tech 2026, Bangalore Top Colleges, Management Quota Info, NRI Quota, Fee Structure, Talk to Counsellor), ten callouts (Free Counselling, 15+ Years Experience, PAN India Service, Verified Consultant, End-to-End Support, Transparent Process, NRI-Friendly, Documentation Help), structured snippets listing colleges and courses, call extensions with 9 AM–10 PM scheduling, lead form extension (critical for mobile — pre-fills name/phone/email), location extension if a physical office exists, price extension, and image extension.

Ad copy formulas and sample ads

Competitors like IndEdu, ShikshaTech, Btech-Guru and Admission Karo have converged on a small set of high-performing ad patterns. Five proven formulas to adapt:

1. `[College] Direct Admission [Year] | Management Quota | Call Now` → "RVCE Direct Admission 2026 | Management Quota Guidance | Call Now"
2. `Missed [Exam]? Get Direct Admission in [College]` → "Missed KCET/COMEDK? Direct Admission in BMSCE via Management Quota"
3. `[College] [Branch] Fees [Year] – ₹[X]L | Free Counselling` → "SRM KTR CSE Fees 2026 — ₹19L | Free Counselling"
4. `Direct B.Tech Admission in [City] Without [Exam] | Free Counselling` → "Direct B.Tech Admission in Bangalore Without JEE | Free Counselling"
5. `[College1] vs [College2] vs [College3] | Which is Best for CSE?` → "RVCE vs BMSCE vs PESU | Best CSE College 2026? | Free Guide"

Sample Responsive Search Ad — SRM campaign

Headlines (pin three, rotate rest): "SRM B.Tech Direct Admission 2026" | "SRM Management Quota Guidance" | "Free Counselling — Call Now" | "Expert Admission Assistance" | "SRM KTR, AP, Ramapuram, NCR" | "CSE, AI-ML, Data Science Seats" | "15+ Years Admission Expertise" | "WhatsApp Our Counsellor Today" | "Transparent Fees, End-to-End Support" | "Talk to SRM Admission Expert" | "Admission Help Without SRMJEEE" | "Documentation & Application Help"

Descriptions: "Independent admission consultancy for SRM B.Tech 2026. Free counselling, transparent fee guidance, full documentation support. Call or WhatsApp our counsellor now." | "Guidance for SRM CSE, AI-ML, Data Science, ECE direct admission. NRI quota assistance. 15+ years helping students navigate private-university admissions."

Sample RSA — Bangalore campaign

Headlines: "Direct B.Tech Admission in Bangalore" | "Management Quota — RVCE, BMSCE, PES" | "Free Counselling from Expert" | "Missed KCET or COMEDK?" | "MSRIT, DSCE, NMIT, Jain, Christ" | "CSE, AI-ML Direct Admission 2026" | "WhatsApp Us for Fee Quote" | "Book 30-Min Free Consultation" | "Bangalore Top 10 Colleges Covered" | "Transparent, Legal, Documented Process"

Descriptions: "Independent consultancy helping students get B.Tech admission in Bangalore's top engineering colleges. Transparent fee guidance, legal process under Karnataka PEI Act. Free counselling." | "RVCE, BMSCE, PES, MSRIT, DSCE, NMIT and more. End-to-end documentation support. Call or WhatsApp to check eligibility and today's fee range."

Avoid these words entirely in ad copy: guaranteed, 100%, sure-shot, confirmed seat, donation, capitation, authorized by SRM, official partner.

Landing page anatomy that converts

The top competitors (IndEdu, ShikshaTech, Btech-Guru, Admission Karo, Btech-Seats) have converged on a **16-section template** that Knowledge Park 360 should implement with one page per campaign theme (SRM page, Bangalore page, generic management-quota page, plus course-specific variants for CSE and AI-ML). The skeleton: sticky top bar with phone + WhatsApp → hero with specific H1 mentioning college + year + fee band + twin CTAs → short lead form (4–6 fields max: Name, Phone*, Email, City, Target College, Class 12 %) → trust strip with experience claim and admission count → "What is management quota" education block → branch-wise fee table with "last updated" date → eligibility box → partner colleges logo grid with disclaimer → numbered 5-step admission process → placement stats with recruiter logos → 3–5 testimonials with photos → named counsellor card → 15–30 question FAQ → urgency/scarcity banner → repeat CTA block → footer with address, privacy, terms, and independence disclaimer.

Form design: keep it to five fields on mobile; button text "Get Free Counselling & Fee Quote" outperforms "Submit" or "Apply Now" by wide margins in this niche. **Primary CTA stack:** WhatsApp float (sticky bottom-right) → Call Now (header tap-to-call) → Free Counselling form (hero + repeat) → Check Eligibility quiz (mid-page) → Book Your Seat (bottom). Downloadable brochures convert poorly here — parents want phone contact, not PDFs.

Trust signal must-haves observed across every high-converter: prominent click-to-call phone, WhatsApp floating button, years-in-business claim (10+, 14+, 15+), named counsellor with photo and direct contact, branch-wise 2026 fee table, step-by-step process diagram, college logo grid, minimum three named testimonials, privacy/terms links, independence disclaimer, physical office address. **Differentiator opportunities** (almost no competitor does these): genuine video testimonials (currently zero competitors have them — massive opportunity), a weekly-updated transparent fee dashboard with a "Last Updated" timestamp, a parent-first ROI calculator page (4-year fees vs expected CTC, EMI calculator, education loan partner info), a WhatsApp

Business API chatbot that auto-sends branch-wise fee PDF and eligibility quizzes, and Hinglish Instagram Reels / YouTube Shorts (competitors have almost none).

Budget, geo-targeting and the 2026 seasonality calendar

Education lead-gen CPLs in India for B.Tech admissions run **₹200–₹800** for high-intent leads and **₹400–₹1,500** specifically for management-quota queries. After 60 days of optimization, Knowledge Park 360 should expect a **blended CPL of ₹350–₹700** — rising to ₹600–₹1,000 in peak July–August competition and falling to ₹250–₹400 in the off-season.

Monthly budget path for the 2026 cycle

Phase	Months	Monthly spend	Expected leads	Focus
Pilot	Jan 2026	₹75K–₹1L	100–200	Data-gathering, tracking setup
Pre-season	Feb–Mar	₹1.25–1.75L	200–400	JEE Main Session 1 post-result capture; awareness
Ramp	Apr–May	₹2–3L	400–800	SRMJEEE Phase 1+2, KCET, COMEDK windows
Peak	**Jun–Aug**	**₹4–6L**	**1,500–3,000**	**Maximum spend — JoSAA rounds + MQ rush**
Decline	Sept	₹3–4L	500–800	Spot admissions, vacant seats
Slowdown	Oct	₹75K–₹1L	100–250	Late cases only
Off-season	Nov–Dec	₹50K	100–200	Brand + remarketing + SEO content
Annual	**—**	**₹25–40L**	**3,000–6,000**	**240–720 closed admissions at 8–12% close**

Geo-targeting priorities

For **SRM campaigns**, the highest-value source states historically are West Bengal, Bihar, UP, Delhi NCR, Jharkhand and Northeast states — apply **+20% to +30% bid modifiers** on tier-1 metros within these states (Kolkata, Patna, Lucknow, Delhi, Ranchi, Guwahati). Tamil Nadu and Karnataka searchers for SRM already have organic access and don't need aggressive paid push. For **Bangalore-college campaigns**, the highest-value source regions are Karnataka (of course), Andhra Pradesh, Telangana, Kerala, and Tamil Nadu — apply **+20% to +30%** modifiers on Bangalore, Hyderabad, Vijayawada, Kochi, Chennai, Coimbatore. A **dedicated NRI campaign**

targeting UAE, Saudi Arabia, Oman, Qatar, Kuwait, Bahrain is worth 8% of total budget because NRI-quota leads have 5–10x the lifetime value of domestic leads.

Ad scheduling matters more than most advertisers realize: roughly **55% of admission leads convert between 6–10 PM** when parents are home from work. Apply **+30% bid modifier for 7–10 PM weekdays** and **+25% for Sunday** (the single highest-converting day because parents and students discuss together). Pause or heavily de-bid (-80%) between midnight and 6 AM.

2026 exam-cycle trigger dates to orchestrate campaigns around

JEE Main Session 1 results around **12 February** (first anxiety spike — launch JEE-alternative messaging), SRMJEEE Phase 1 **24–29 April** (SRM campaign first peak), KCET **23–24 April**, COMEDK UGET **9 May** with results 26 May, SRMJEEE Phase 2 **10–16 June**, **JoSAA Round 1 allotments mid-June** (first management-quota surge as students reject JoSAA seats), SRMJEEE Phase 3 **4–5 July**, KCET option entry through **29 July**, CSAB special rounds late July, and late-round KCET/COMEDK counselling running into early September. Google Trends data consistently shows "management quota" peaking at index 100 in July (vs trough of 20–30 in November–January) — so **July and August deserve 35–40% of annual ad spend compressed into two months**.

The 30/60/90-day action plan

First 30 days (launch). Set up Google Analytics 4 with conversion events for form, call, WhatsApp, and callback. Install the Google Ads conversion tracking tag and Enhanced Conversions for Leads. Build four core landing pages (SRM, Bangalore Tier-1, generic management quota, NRI quota). Write the independence disclaimer and privacy/terms pages. Create a secondary backup ad account with only "direct admission" keywords. Launch Campaigns 1, 2, 3 and 6 (SRM, Bangalore, Generic MQ, Brand Defense) with a pilot budget of ₹75K–₹1L using Maximize Clicks bidding. Apply the 60-term negative keyword list at account level. Install WhatsApp Business API with auto-reply flow.

Days 31–60 (optimize and expand). Review search-term reports weekly and add 20+ new negatives. Pause keywords with 0 conversions after 50 clicks. Move to Maximize Conversions once past 20 conversions. Launch Campaigns 4 (course-specific) and 7–8 (remarketing) once you have site-visitor audiences of 1,000+. Commission 5–10 genuine video testimonials from recently admitted students at SRM and top Bangalore colleges. Build the weekly-updated fee dashboard with timestamps. Record 10–15 Hinglish Instagram Reels explaining "Kya hai management quota?" and "SRM vs RVCE vs PES for CSE."

Days 61–90 (scale into peak). Ramp budget to ₹2–3L/month leading into April–May. Move winning ad groups to Target CPA ₹350–₹500. Duplicate top-performing campaigns into an "Alpha" structure with higher tCPA caps for aggressive scaling. Launch Campaign 5 (JEE-alternative) timed for JEE Main Session 2 results. Begin uploading closed admissions as offline conversions weekly. Start preparing for the July–August peak with ₹5–6L monthly budgets queued, additional creative variants, and ad-scheduling bid modifiers locked in.

The bottom line

Knowledge Park 360's opportunity isn't to outspend GetMyUni or CollegeDekho — those are content portals, not specialist consultancies. The real competitive set is IndEdu, ShikshaTech, Btech-Guru and Admission Karo, all of which have converged on similar tactics and leave three gaps wide open: **transparent real-time fee disclosure**, **genuine video testimonials**, and a **tight niche positioning** ("India's specialist for SRM + Bangalore Top 5"). Executing the compliant-terminology keyword strategy, the eight-campaign architecture, and the WhatsApp-first conversion funnel against the April–September peak calendar should produce a sustainable cost-per-admission in the **₹3,500–₹7,000 range** — comfortably profitable given consultancy fees of ₹50,000–₹2,00,000+ per closed case. The single biggest risk to manage is Google Ads account health; the mitigation is disciplined ad-copy hygiene, the independence disclaimer, and a clean backup account ready to take over if the primary ever gets suspended during peak season.
